

## Technical Data Sheet

# CEMPATCH PRIMER

A polymeric cementitious primer coat

### Advantages:

- \* Easy to apply
- \* Pre-packed
- \* Excellent weather resistance
- \* Excellent bonding
- \* Contains no corrosive substances

### Product:

Cempatch Primer is a two pack polymeric cementitious system, primary protective coat for concrete.

### Purpose:

Provides a thin section coat with good bonding between old and new surfaces.

### Usage:

A 2kg pack will cover approximately 7 m<sup>2</sup> area.

### Pack:

2 kg, 1 kg pack

A SUBSIDIARY OF DON CONSTRUCTION PRODUCTS LTD., U.K.

**DESCRIPTION:**

Cempatch Primer is a thin section polymeric coat designed to provide an excellent bond between old and new surfaces.

**WHERE TO USE:**

All concrete surfaces where bonding is required.

**PROPERTIES:**

Working life at 20°C - 30 minutes  
Touch dry time at 20°C - 4 hours

**INSTRUCTIONS FOR APPLYING  
CEMPATCH PRIMER:*****Surface Preparation:***

The concrete should be cleaned with wire brush or acid cleaning. All dust particles should be removed to achieve good bonding of coating.

***Mixing:***

Cempatch Primer is supplied in two pack system with a powder component and the respective pre-weighed amount of liquid. The liquid should be poured into the suitable mixing vessel and the powder component gradually added under mechanical mixing. The continuous mixing should be done until a homogeneous colour is achieved.

***Application:***

One coat of mixed Cempatch Primer should be applied by brush on substrate.

***Cleaning:***

A 2 kg pack will cover approximately 7 sq. mtrs.

**SAFETY PRECAUTION:**

Cempatch Primer is non-hazardous. However inhalation of dust of powder should be avoided. In wet condition, the material is and any splashes to the skin should be washed off with water to prevent possible skin irritation.

**HOW TO SPECIFY:**

Cempatch Primer a bonding agent shall be given to entire concrete surface in accordance with the instruction of the manufacturer Don Construction Chemicals India Ltd.

The information given in this data sheet is based on both current development work and many years of field experience. Whilst every effort is made to ensure that the information is reliable, we cannot accept responsibility for any work carried out with our materials as we have no control over methods of application, site conditions, etc.

In view of the continuing research and development being undertaken in our laboratories, we advise customers in their own interest to ensure that this data sheet has not been superseded by a more up-to-date publication. All products are sold subject to our standard conditions of sale which are available on request.

Field services, where provided, does not constitute supervisory responsibility. For additional information, please contact your local DON representative.
